Invest Northern Ireland is the region's economic development agency. It helps new and existing businesses to compete internationally and attract new investment to Northern Ireland.
Northern Ireland has a world-leading technology sector, and following the UK's exit from the European Union (EU), Northern Ireland continues to have access to the Great Britain (GB) and the EU markets for goods. This means that Northern Ireland is a gateway for the sale of goods to two of the world's largest markets and the only place where businesses can operate free from customs declarations, rules of origin certificates and non-tariff barriers on the sale of goods to both GB and the EU.
